Animas River Youth Confluence

December 1,
2015

Welcome

Hello everyone! Animas High School and Navajo Preparatory school are happy to entertain you today with music, art, a documentary, and extensive info related to the devastating Gold King Mine spill and ongoing non-point source pollution in the Animas River. We hope that through this event we will be able to raise awareness and create positive change in not only local areas but also beyond. To achieve this we have brought together a group of young individuals who have put in a great amount of effort in order to help the Animas River become healthy and alive again!

Event Schedule

Event Overview (5pm-7pm)
