

# Model Senate Committee Prep

There are three parts to the Model Senate project that count towards your summative grade:

- Senate Sports Card (30 points)
- Senate Bill (40 points)
- Floor Speech (100 points)

Over the next two days, you'll have almost two hours to gather information to support your work on these three pieces. This sheet can help you assemble information for your bill, speech and senate sports card. These are the three pieces that will count toward your summative grade for this project.

## Senate Sports Card

Follow the instructions and the reverse side of this sheet. Gather notes from your research here on your senator's voting history (especially on related climate change and immigration reform bills) and statements that encompass their political philosophy.

## Senate Bill/Speech

Think about the committee you are on. What would senator be for with regard to this issue? What would he or she be against?

Issue:

<b>For</b>	<b>Against</b>
